Hon. Elizabeth Ofosu-Adjare, MP

Minister for Trade, Agribusiness & Industry

Statement from the

Hon. Elizabeth Ofosu-Adjare, MP

Minister for Trade, Agribusiness & Industry

Ghana's agribusiness sector stands at an important point in its development. With a strong agricultural base, a growing private sector and access to regional and international markets, Ghana has considerable potential to develop more competitive and integrated agribusiness value chains. The opportunity is not simply to increase production, but to create greater value from what Ghana produces, strengthen processing and manufacturing, improve standards and quality, and connect Ghanaian enterprises more effectively with domestic, regional and international markets.

For the Government of Ghana, agribusiness development is closely linked to our broader objectives of industrialisation, export development, job creation and private-sector growth. We want to see more agricultural output processed locally, more competitive businesses emerging across the value chain, and greater participation of Ghanaian enterprises in international markets. Achieving this requires investment, technology, skills, innovation, infrastructure and strong commercial partnerships.

International cooperation can make a practical difference. European companies bring significant experience and capabilities in food processing, agricultural technology, logistics, cold-chain solutions, packaging, sustainable production, quality management and market development. Ghanaian businesses, in turn, offer local knowledge, entrepreneurial capacity, production opportunities and an understanding of Ghanaian and wider West African markets. Stronger connections between these business communities can generate opportunities that benefit both sides.

The EU–Ghana Agribusiness Exhibition Forum provides an important platform for these connections. By bringing Ghanaian and European companies together, the Forum creates opportunities not only to showcase products and capabilities, but also to discuss investment, sourcing, technology transfer, market access and partnerships across the agribusiness value chain.

The Ministry of Trade, Agribusiness & Industry welcomes initiatives that move beyond dialogue and enable businesses to engage directly with potential partners and investors. The participation of companies, investors, business organisations and supporting institutions demonstrates the importance of building a stronger ecosystem around Ghanaian agribusiness.

We encourage Ghanaian enterprises to use the Forum to present themselves as credible business partners, understand international market requirements and explore new commercial relationships. European companies will likewise have the opportunity to better understand Ghana's business environment, identify local partners and explore opportunities to invest, source, manufacture and develop solutions in Ghana.

The Government remains committed to creating an environment in which private enterprise can grow, investment can be attracted and Ghanaian businesses can become more competitive internationally. Stronger cooperation between the public and private sectors, and between Ghanaian and international businesses, will be essential to achieving this ambition.

I welcome the EU–Ghana Agribusiness Exhibition Forum and encourage all participating businesses and institutions to establish meaningful connections, identify concrete opportunities and build partnerships that can continue well beyond the Forum itself.

Ghana has the resources, entrepreneurial capacity and market opportunities to build a stronger agribusiness economy. Our task is to connect these assets with the investment, technology, expertise and markets required to unlock their full potential.

Hon. Elizabeth Ofosu-Adjare, MP

Minister for Trade, Agribusiness & Industry

H.E. Rune Skinnebach

Ambassador of the European Union to Ghana

Statement from
H.E. Rune Skinnebach

Ambassador of the European Union to Ghana

The European Union and Ghana share a longstanding partnership built on strong political, economic and people-to-people ties. Trade and investment are an important part of this relationship, and the EU remains committed to supporting Ghana's efforts to strengthen its productive capacity, expand exports, attract investment and create sustainable economic opportunities.

Agribusiness is particularly important in this context. Ghana has significant potential across agricultural production, processing, logistics, food manufacturing and related services, while European companies bring expertise, technology, investment and access to international value chains. Connecting these complementary strengths can create opportunities for businesses on both sides and contribute to more resilient and competitive value chains.

The European Union places strong emphasis on partnerships that generate tangible economic opportunities. Through initiatives such as Global Gateway, the EU seeks to mobilise investment and strengthen sustainable infrastructure, connectivity, digitalisation, energy and productive sectors, while supporting an enabling environment for private-sector development. In Ghana, this approach is particularly relevant to the development of value-added and export-oriented sectors such as agribusiness.

The EU–Ghana Agribusiness Exhibition Forum provides a practical platform for advancing this agenda. Bringing Ghanaian and European companies together allows businesses to move beyond general discussions and explore concrete opportunities for trade, investment, technology transfer, sourcing and commercial partnerships.

Such engagement is especially important as companies increasingly need to understand evolving international requirements relating to quality, traceability, sustainability, environmental standards and responsible supply chains. Stronger business-to-business relationships can help Ghanaian enterprises access new markets while enabling European companies to identify credible local partners and investment opportunities.

The European Union welcomes initiatives that bring together the public and private sectors around practical economic cooperation. Events such as this Forum provide an opportunity to showcase Ghanaian capabilities, strengthen commercial networks and encourage partnerships that can continue beyond the event itself.

We encourage Ghanaian and European businesses participating in the Forum to use the opportunity to engage openly, explore new ideas and identify areas where cooperation can create lasting value. Sustainable economic growth depends on productive partnerships, and stronger links between our business communities can make an important contribution to the shared prosperity of Ghana and Europe.

The European Union is pleased to support efforts that strengthen these connections and looks forward to seeing the relationships established through the Forum develop into concrete trade and investment opportunities.

H.E. Rune Skinnebach
Ambassador of the European Union to Ghana

Statement from the
Ghana Investment Promotion Authority (GIPA)

"Ghana's agribusiness sector presents significant opportunities for investment, value addition, technology transfer and the development of competitive supply chains. Creating stronger connections between Ghanaian enterprises and international investors is therefore an important part of unlocking this potential.

GIPA welcomes the EU–Ghana Agribusiness Exhibition Forum as a platform that brings businesses, investors and relevant institutions together to explore concrete opportunities for collaboration. Beyond showcasing Ghana's agricultural potential, such platforms can help investors better understand the market, identify credible local partners and connect with opportunities across the agribusiness value chain.

GIPA remains committed to facilitating investment into Ghana and supporting investors throughout their investment journey. We encourage both Ghanaian and European businesses participating in the Forum to use the opportunity to build relationships, explore partnerships and contribute to the development of a more competitive and sustainable agribusiness sector."

Simon Madjie
CEO - Ghana Investment Promotion Authority (GIPA)

Statement from the
Netherlands Enterprise Agency (RVO)

Supporting Green, Digital and Inclusive Agribusiness Development in Ghana

The Netherlands Enterprise Agency (RVO) is pleased to support the EU–Ghana Agribusiness Exhibition Forum & Trade Mission 2026 as part of our commitment to Green, Digital and Inclusive Private Sector Development. This event exemplifies the practical business-to-business connections that are essential to unlock Ghana's agribusiness potential and create sustainable economic opportunities.

RVO supports entrepreneurs and organisations to invest, develop and expand their businesses and projects—both in the Netherlands and internationally. We provide practical support, expertise and connections to enable businesses to succeed in competitive global markets.

Our Work in Ghana

In Ghana, RVO is actively engaged in supporting business development, sustainable agriculture, food processing and digital transformation. We work with enterprises seeking to expand into Ghanaian markets, and with Ghanaian businesses building international competitiveness. Our focus is on creating enabling partnerships that combine Dutch expertise in technology, sustainable food systems, cold-chain solutions and agribusiness value addition with Ghana's agricultural potential and entrepreneurial capacity.

The participation of companies in this Forum including specialists in fresh produce sourcing, cold storage infrastructure, digital solutions and circular economy innovation reflects the depth of practical expertise that businesses can bring to Ghana's agribusiness development.

We encourage all participating businesses to engage openly, identify concrete partnership opportunities, and build relationships that create lasting value for Ghana, Europe and the shared prosperity of our communities.

Saskia Hallenga
Managing Director International Cooperation
The Netherlands Enterprise Agency (RVO)

Statement from the Chairman of EuroCham Ghana

"The EU–Ghana Agribusiness Exhibition and Forum reflects EuroCham Ghana's commitment to strengthening practical business links between Ghana and Europe. Agribusiness offers significant opportunities for investment, technology transfer, value addition and access to international markets, but unlocking this potential requires stronger connections between businesses, investors and institutions.

Through this Forum, we aim to provide a platform where Ghanaian and European companies can meet, exchange experience, identify concrete areas of cooperation and develop new business relationships. Our objective is not simply to showcase opportunities but to facilitate partnerships that translate into investment, trade and sustainable growth.

We are particularly pleased to bring together enterprises, public institutions and development partners around a shared focus: making Ghana's agribusiness sector more competitive, better connected to European markets and more attractive to European investment."

Herbert Friese
Chairman, EuroCham Ghana

MESSAGE FROM THE EXECUTIVE DIRECTOR

Where Europe Meets Ghana
Welcome to the EU–Ghana Agribusiness Exhibition & Forum 2026.

As Executive Director of EuroCham Ghana, I am proud to have led the organisation and coordination of this initiative, bringing together European and Ghanaian businesses, institutional partners and stakeholders to create new opportunities for trade, investment and collaboration.

A particular priority has been the careful selection of Ghanaian companies to showcase their products, capabilities and potential alongside European businesses. These enterprises represent the innovation and entrepreneurial talent Ghana offers and deserve greater visibility and access to international markets.

My sincere appreciation goes to the EuroCham team for their dedication, hard work and commitment in bringing this exhibition to life, as well as to our partners, sponsors and exhibitors for their invaluable contributions.

I invite you to discover the companies featured in the following pages and explore the opportunities for lasting partnerships between Europe and Ghana.

Nicolas Gebara
Executive Director
European Union Chamber of Commerce in Ghana (EuroCham Ghana)

European Delegates

Aeres Training Centre

Agricultural Training & Capacity Building the Netherlands

Aeres Training Centre

Aeres Training Centre is the training and consultancy unit of Aeres University of Applied Sciences and Aeres Vocational Institutes. It delivers tailor-made, demand-driven training and capacity-building programmes for professionals, companies, educational institutions, and governments in the agri-food sector. Drawing on Dutch expertise, applied research, and professional practice, Aeres develops practical, interactive programmes in sustainable agriculture, horticulture, animal husbandry, food systems, climate-smart farming, and water management. Training is offered in the Netherlands, abroad, or in hybrid formats.

Aeres also supports curriculum development, institutional strengthening, and training-of-trainers programmes that build sustainable local capacity. In Ghana, Aeres aims to establish long-term partnerships with local training institutions and organisations to jointly develop and deliver training programmes. By combining Aeres expertise with local knowledge and experience, the programmes seek to strengthen skills and local capacity in the Ghanaian agri-food sector.

KEY EXPERTISE

- Tailor-made Professional Training – training programmes in agriculture, horticulture, livestock, feed production, and food systems.
- Training of Trainers (ToT) – Developing local trainers to deliver high-quality training and strengthen expertise.
- Curriculum Development – Designing and improving educational programmes and practical learning materials to meet industry needs.
- Institutional Strengthening – Supporting local training institutions in improving their training capacity, educational quality, and organizational capabilities.
- International Capacity Building and Consultancy – Providing expert advice, knowledge transfer, and long-term partnerships to strengthen skills and develop sustainable agri-food sectors.

INTEREST IN GHANA

Aeres trains students from across Africa, current markets including Ghana, Benin, Burkina Faso, Uganda, Mozambique, Nigeria, and Senegal. Over the past 50 years, Aeres has welcomed trainees from Ghana to the Netherlands. Aeres would like to start training activities in Ghana in cooperation with local partners, with a view to extending their work across West Africa. The focus would be on poultry farming, pig farming, horticulture, water management, smart farming, and land-based education and training.

LOOKING FOR IN GHANA

Representatives of government (also regional government), big companies that are willing to invest in knowledge and want to form partnerships, big NGO' s with training ambitions, universities.

Afropulse Food

Mission-driven Company Food Ingredients the Netherlands

Afropulse Food is a mission-driven company and WUR spin-off, based in Wageningen and active in Tamale, Northern Ghana. It turns cowpea, a drought-tolerant and often overlooked West African crop, into clean-label, functional food ingredients. By combining Ghanaian-grown raw material with Dutch food-processing expertise and testing, Afropulse builds a fairer value chain that shares knowledge and value, not just a price, between the farmers who grow the crop and the companies that use it.

Afropulse works with more than 300 smallholder women farmers in Northern Ghana. The company plans to process its ingredients locally for local value addition, while also tapping into high-value markets in the EU with B2B and B2C products. Afropulse received the WUR Spin-off Label in 2025.

KEY EXPERTISE

Cowpea protein concentrate (52–55% protein): high water binding, gelling and foaming; for bakery, meat alternatives, sauces, dairy and plant-based drinks, bouillon and sports nutrition.

Starch-rich cowpea flour (about 16% protein): natural thickening and moisture retention; for bakery blends, porridges, extruded snacks and koose / akara mixes.

INTEREST IN GHANA

Afropulse wants to explore the local market in Ghana for customers in the food sector, across the different applications of its products. It also plans to deepen its collaboration with women farmers in Northern Ghana, improve cowpea yields and post-harvest storage, and build local processing capacity along the value chain. It positions locally grown cowpea as an alternative to imported soy and pea protein concentrates.

LOOKING FOR IN GHANA

Ghanaian bakeries, food manufacturers, ingredient importers, wholesalers and retailers interested in testing cowpea protein concentrate and flour in their products, as well as partners in logistics, storage, quality assurance and market access for smallholder farmers. Book a 1-on-1 meeting with the team between Tuesday 27 and Friday 30 October (afternoons).

Frisomat

Steel Building Systems · Belgium

FRISOMAT®
BUILDING DREAMS IN STEEL SINCE 1978

Frisomat is a Belgian family-owned business. We design and produce industrial steel buildings for almost 50 years. We have a unique building system, which makes our buildings last long with almost no maintenance on one hand and it also reduces the overall building cost on the other hand. All our buildings are designed following the European Norms so that our customers can make durable investments. Frisomat is active in more than 100 countries worldwide and has delivered more than 37.000 buildings in its history.

KEY APPLICATIONS

- Warehousing and storage buildings, often with offices and modern loading bays.
- Production and processing facilities which are designed to our customers' needs
- Workshops which can take overhead cranes
- Aircraft hangars with free spans up to 70m

All our buildings are 100% hot dip galvanized which makes them almost maintenance free and our lightweight steel structures bring down the cost for transportation, foundation and assembly.

INTEREST IN GHANA

Frisomat is more than 40 years active on the African market. We have supplied more than 2000 buildings in about 40 African countries. Frisomat is active in Ghana for almost 20 years. We have supplied many buildings to Ghana, ranging from different sectors and regions. Ghana and West-Africa as a whole is an important region for Frisomat where we have achieved significant growth over the past years and where we expect to continue to grow in the next years.

LOOKING FOR IN GHANA

We're looking for companies which are active in the agribusiness sector (or other industries) who are in the need of storage capacity or those who want to process agricultural products.

We're also looking for partners who are active in the agribusiness sector or construction sector and are looking to present us on the Ghanian market

JobnetAfrica

Executive Search & Recruitment the Netherlands

JobnetAfrica is a boutique executive search firm that connects businesses in Africa with senior local and expatriate professionals. Since we started working in Africa more than 15 years ago, we have completed over 600 placements for more than 260 clients across 31 African countries. Our work focuses on sectors where specialist knowledge makes a real difference: agricultural supply chain, ports and logistics, construction and renewable energy. In agribusiness, we recruit senior professionals for every stage of the value chain, from farm and production management to processing, procurement, sourcing, logistics and export. Our clients are international investors, agribusinesses and food companies building or growing operations in Africa. JobnetAfrica is registered in the Netherlands and South Africa, and our team works from across the African continent and speaks seven languages. We are also a member of Talentor International, a global network of executive search firms.

KEY SERVICES

Executive search for senior and executive roles: a dedicated search for each role, reaching professionals who are not actively looking for a new job but are open to the right opportunity.

Specialist and technical hires: agronomists, plant and operations managers, and supply chain, procurement and quality professionals for agribusiness and food companies.

Local and expatriate talent: access to a network of over 100,000 professionals, combining senior African talent with experienced expatriates ready to relocate.

Market and salary insights: practical information on salary levels, candidate availability and hiring conditions in the country where you are hiring.

INTEREST IN GHANA

We would like to support more companies investing in Ghana and the wider West African region, helping them recruit the senior local and expatriate professionals they need to set up or expand their operations.

LOOKING FOR IN GHANA

Ghanaian and international companies operating in Ghana that need to recruit senior management, technical specialists or other skilled professionals, particularly businesses experiencing growth or international expansion.

Kutana Pay

Cross-Border Payments & Trade Finance · United Kingdom

Kutana Pay is a Ghana-focused fintech company providing payment infrastructure and financial solutions that help businesses move and manage money across borders. Its services include cross- border payments, foreign exchange (FX) solutions, multi-currency wallets, bulk payments, collections, treasury management, and API integrations. Kutana Pay supports businesses in streamlining international transactions, managing supplier payments, improving settlement processes, and addressing working-capital challenges. Within the agribusiness value chain, Kutana Pay serves as a financial technology and payments partner, supporting importers, exporters, traders, distributors, and other agribusiness stakeholders with their payment and treasury needs. Its solutions are relevant to businesses sourcing equipment, inputs, commodities, and services internationally. Kutana Pay's focus is on supporting businesses operating across African markets and facilitating cross-border transactions. In Ghana, the company is interested in building partnerships with agribusinesses and international trade organizations to help businesses entering, expanding, or sourcing within Ghana and other African markets navigate payment and financial operations more efficiently.

KEY SERVICES

- Cross-Boarder Payments
- Foreign Exchange (FX) Solutions
- Multi Currency Wallets
- Bulk Payments
- Payment Collections
- API Integration

MARKET INTEREST

In Ghana, Kutana Pay already works with FMCG and food companies and has trade connections into the UK and the US, with a particular focus on agricultural trade, supply chains and raw materials. Face-to-face contact is seen as key to building trust with new partners.

LOOKING FOR IN GHANA

Ghanaian and African businesses, importers, exporters and multinationals seeking cross-border payment solutions. Buyers, distributors, agents and banks interested in partnerships. Technology partners for API integration, partners in FX, treasury and lending, and investors open to joint ventures.

MALO Groupe

Fresh Produce Sourcing & Trading · France

MALO Groupe is an international fresh-produce sourcing and trading company working with selected farmers across Africa. It supports producers in meeting international food-safety, quality and environmental standards and can facilitate access to international distribution markets. Its interest is particularly relevant to producers capable of supplying consistent volumes of export-quality fruit and vegetables. MALO can potentially support the development of producer relationships, quality improvement and routes into European/international markets.

A French-African sourcing agency active since 2014, MALO specialises in exotic fruit and fresh vegetables for the European market and is expanding into finished products such as juices, with French and African teams on the ground.

KEY EXPERTISE

- Import and export logistics
- Sourcing and merchandising
- Support for exporters in meeting European quality standards and market access

INTEREST IN GHANA

Ghana is new territory for MALO, which currently operates in French-speaking countries. The aim is to build new local trade and supplier relationships, including merchandising collaboration, and to explore opening a local office.

LOOKING FOR IN GHANA

Ghanaian fruit and vegetable producers, farmer organisations, aggregators and processors able to supply consistent volumes and meet international quality and sustainability requirements.

● efya@malo-trading.com ● www.malogroupe.com

Middendorp Montage BV

Cold Storage & Insulated Building Systems · the Netherlands

M.M Montage is a Dutch specialist in insulated and temperature-controlled building solutions, with over 20 years of experience. We supply and install insulated sandwich panels, cold stores, freezer rooms, food-processing facilities, agricultural storage buildings,cold-room doors and hygienic wall systems. We combine technical expertise, high-quality materials and skilled installation to deliver durable, energy-efficient solutions tailored to each project. For Ghana and West Africa, we focus on agriculture, food processing and cold-chain logistics. Our solutions help improve storage conditions, maintain product quality, reduce energy use and minimise post-harvest and food losses. M.M Montage aims to cooperate with local partners to develop practical, reliable and sustainable solutions for the growing African food and cold-chain sector.

UNIQUE SELLING POINTS

- **Complete turnkey solutions** – from engineering and supply to installation of insulated buildings, cold stores, freezer rooms and food-processing facilities.
- **Specialist expertise in insulated construction** – extensive experience with sandwich panels, insulated roofing, hygienic wall systems and temperature-controlled environments.
- **Strong focus on cold-chain and food preservation** – solutions that help maintain product quality, extend shelf life and reduce post-harvest and food losses.
- **Dutch quality and craftsmanship** – combining high-quality materials with experienced and skilled installation teams.
- **Energy-efficient solutions** – high-performance insulation helps reduce energy consumption and operating costs, particularly important in warm climates.
- **Flexible and tailor-made** – every project is adapted to the customer's process, required temperature, hygiene standards, building requirements and local conditions.
- **Solutions for multiple sectors** – including agriculture, horticulture, food processing, cold-chain logistics, distribution, warehousing and industry.
- **One reliable partner** – M.M Montage combines technical knowledge, products, project coordination and installation, giving customers a single point of contact throughout the project.

LOOKING FOR IN GHANA

We would like to meet potential customers, developers, contractors, distributors and local business partners involved in cold storage, food processing, agricultural storage and temperature-controlled facilities. We are also interestedin companies looking for insulated sandwich panels, cold rooms, freezer rooms and hygienic building solutions.

Spaak Circular Solutions

Circular Economy · Agricultural Residual Streams · the Netherlands

Spaak Circular Solutions is a circular business development company accelerating the transition to a circular economy by creating sustainable and economically viable value chains. We combine commercial and technical expertise to identify,develop and implement circular business cases. We have experience in valorizing agricultural and organic waste streams into higher-value products and materials. Projects that we are working on include banana and plantain residues, rice husks and straw, orangepeels, avocado pits and biochar. Through these projects, Spaak has developed expertise in biomass valorization, circular value chain development, market assessment and implementing bio-based solutions across diverse regional contexts.

UNIQUE SELLING POINTS

- Entrepreneurial approach
- We know how to turn good ideas into real businesses
- We cooperate with all types of stakeholders
- Technical and commercial expertise

INTEREST IN GHANA

We are looking for companies in the agri-processing sector that produce significant volumes (>2.000 tons) of byproducts per year. We offer circular solutions to convert these byproducts into new resources and materials. Specifically,we offer solutions for cellulose extraction, biochar production, fiber extraction (multipurpose) and silica extraction (cement replacement). We know that groundnut, maize, yam, cassava, rice, oil palm and sorghum produce relevant byproducts, but we are opento meet anyone interested in valorizing byproducts.

LOOKING FOR IN GHANA

Besides this, we are looking to meet companies that are looking for biochar, fibers, cement additives or cellulose. We are also looking to meet construction companies that interested in buying sustainable and social concrete blocks, as we have a tailored offerspecifically for them. Finally, we are looking to meet funders that can finance pre-seed, seed and series A

AAK

SUSTAINABILITY & EXTENSION SERVICES

AAK: A Multi-oil Ingredient House

We offer a diversified mix of plant-based oils and fats, underpinned by our extensive expertise and innovation-driven approach to meet the evolving needs of our customers. With decades of experience, we continuously enhance our co-development processes, integrating cutting-edge technologies to ensure we remain at the forefront of the oils and fats industry.

We develop and improve speciality solutions that add value to our customers' products.

Optimizing texture, taste and mouthfeel

We understand the unique properties of oils and fats and how precise combinations create tailored sensory experiences that enhance product quality, from the smooth, velvety texture of premium chocolate to the juiciness of plant-based burgers and the glossy finish of a barbecue sauce.

Co-development with our customers

We work closely with customers to develop the best ingredient solution, combining sustainability credentials with great taste and functionality, as demand grows for sustainable and traceable ingredients.

Sustainability from plant to brand

Sustainability is at the heart of our purpose, Making Better Happen™. Our commitment extends across the value chain, from promoting sustainable farming practices to delivering solutions that earn the trust of today's conscious consumers.

Investing in West Africa's Agricultural Future

AAK's commitment to West Africa goes beyond sourcing. Through two flagship initiatives, we are building the skills, livelihoods and local capabilities that create long-term value across the agricultural supply chain.

Kolo Nafaso

AAK's direct shea sourcing programme, working with 275,000 women shea collectors across Northern Ghana. It provides reliable income, training and market access to rural women who form the backbone of the shea supply chain, while securing a traceable, high-quality supply of shea for AAK's customers globally. Part of AAK's long-term investment in the resilience of the West African shea sector.

AAK Academy Ghana

A technical training programme launched in 2026 under AAK's Memoranda of Understanding with Ghana's Ministry of Food and Agriculture. Now in its second edition, the Academy brings AAK's specialist chocolate and confectionery expertise directly to Ghanaian manufacturers, equipping them with the practical skills to develop higher-value products, improve quality, and compete in international markets.

Sustainable business growth and shared agricultural development are inseparable goals.

Africa Sleek Foundation

Not-for-Profit Organisation • Skills Development & Youth Empowerment

AFRICA SLEEK FOUNDATION FOR SKILLS DEVELOPMENT AND EMPOWERMENT

Africa Sleek Foundation is a non-profit organisation set up to empower women and young people in Ghana to become self-sufficient through skills development, education and advocacy. Through mentorship, skills development and community support, its BoldStart Initiative gives young people the tools, encouragement and pathways to stay in school, excel academically and prepare for a future in which they can thrive and lead.

The Foundation is currently engaging community leaders in the Gomoa district to launch "Youth in Agric", a programme to train young people in cassava and maize processing

KEY PROGRAMMES

- **Bold Start Initiative** — youth skills and personal development; with Sleek Garments Export Limited and Ho University, more than 100 young people trained in fashion and garment-making.
- **Career Outreach** — career guidance in public senior high schools, engaging 600 students across three schools in recent months.
- **Circle of Impact Initiative** — mentorship connecting students with experienced professionals, including a new partnership with River Oaks Records for youth in the creative economy.
- **Community Outreach and Orphanage Support**

PARTNERSHIP INTEREST

International partnerships that provide not only funding but also practical expertise, internship and training opportunities, institutional support and access to networks, in support of mentorship, skills development, education, advocacy and the empowerment of girls and young people in Ghana.

LOOKING FOR

Funding and corporate partners to strengthen its mentorship, skills development, education and advocacy programmes.

B-Diet Limited

Food Processing / Agribusiness

B-Diet makes nutritious food products from quality, locally sourced raw materials. The range includes Zaa Nutri-Mix, an instant cereal-legume blend of sorghum, green gram, orange-flesh sweet potato and turkey berries, suitable for everyone and for complementary feeding of children; gluten-free B-Diet Granola with no added sugar; B-Diet Breakfast Cereals (millet, sorghum, rice, maize and Hausa koko), ready in five minutes; and pure, natural B-Diet Honey.

KEY PRODUCTS

- **Granola**
- **Zaa Nutri-Mix**
- **Biscuits**
- **Honey**
- **Breakfast cereals**

MARKET INTEREST

Export to European markets, particularly the Netherlands, Germany, France, Belgium and Spain. Targeting EU retail chains, wholesale distributors and the African diaspora market, with strong potential for healthy, locally sourced Ghanaian food products.

LOOKING FOR

EU buyers, distributors and investment partners to expand exports of healthy Ghanaian food products into the European market.

Bubune Africa Limited

Ghanaian Shea-based Skincare | Bulk Shea and Cocoa Butter | Private Label and Contract Manufacturing

Bubune Africa Limited is a Ghanaian social enterprise specialising in natural skincare manufacturing, the bulk supply of shea and cocoa butter, and private label and contract manufacturing for skincare brands. Rooted in ethical sourcing and sustainable production, the company combines Ghana's rich natural ingredients with value-add manufacturing to create commercial opportunities while improving livelihoods in rural communities. Bubune Africa's sourcing operations are anchored in Northern Ghana, where they work directly with women's cooperatives in Tamale and Bolgatanga to source shea nuts and support more inclusive value chains. This direct-sourcing model strengthens supply chain traceability, promotes responsible sourcing and helps create more sustainable income opportunities for women. We also apply circular production practices to minimise waste and improve resource efficiency.

KEY PRODUCTS

Bulk ingredients: Unrefined shea butter and cocoa butter

- African black soap: Available in bar and gel formats
- Bubune Beauty finished products: Body butters, body lotions, African black soap and hair care products
- Private label and contract manufacturing: Product development and manufacturing for skincare brands

MARKET INTEREST

Bubune Africa currently exports shea and cocoa butter to cosmetics manufacturers in North America and is expanding focus on finished skincare products and manufacturing partnerships.

LOOKING FOR IN GHANA

Bulk buyers and distributors: cosmetics manufacturers, ingredient distributors and food processors seeking a reliable supply of shea and cocoa butter
Investors and finance partners: Partners to support processing capacity expansion, equipment investment and international certification.
Skincare Brands: interested in private label or contract manufacturing partners.

Eden Tree Limited

Fresh Produce · Fruits, Vegetables & Herbs

Eden Tree Limited is a Ghanaian producer and distributor of high-quality fresh vegetables, fruits and herbs. Founded in 1997 by Catherine Krobo Edusei, the company grows, cleans, packs and supplies fresh produce to supermarkets, restaurants, caterers and wholesale customers, with the mission of promoting healthy eating habits across Ghana.

Eden Tree sources from its own farm sites and a network of outgrower farmers, whom it supports with technical guidance and inputs. Its products carry Ghana Green Label certification, and its website lists HACCP, FDA Ghana and Ghana Standards Authority quality certifications. The company operates under the motto "Healthier People, Better Nation".

KEY PRODUCTS

- Fresh vegetables (including cabbage, capsicum and broccoli)
- Fresh fruits
- Fresh herbs and spices
- Convenience products: cut vegetables, ready-to-eat salads and crushed garlic
- Fresh fruit juices

MARKET INTEREST

Ghana's retail, wholesale and catering markets, supplying leading supermarkets, restaurants and caterers in Accra, as well as its own Eden Tree Mart in Tema. Eden Tree has worked with development partners including GhanaVeg, GIZ and Partners in Food Solutions.

LOOKING FOR

Partners and investors to strengthen reliable, cost-competitive and high-quality raw-material supply from smallholder farmers, and to grow and diversify its customer and channel base.

Honey Guide

Fresh Produce · Fruits, Vegetables & Herbs

THE FUTURE OF FOOD IS HONEYGUIDE.

A $1.5 TRILLION MARKET OPPORTUNITY. 500 MILLION SMALL FARMS.

The world's next great agricultural opportunity isn't just about growing more food. It's about unlocking the value of what's already being grown. Across the world, fragmented agricultural markets leave enormous value unrealised. Farmers struggle to reach profitable markets. Businesses face inefficient supply chains. Consumers pay more than they should for fresh food. Honeyguide is changing that. Honeyguide is a US-based, AI-powered agritech company on a mission to transform agricultural market access, starting in Africa. We're building the technology, infrastructure and market connections to make food distribution more efficient, unlock economic opportunities and bring fresher, more affordable food to more people. With operations in Ghana, we're turning an enormous global challenge into a scalable commercial opportunity. Our ambition is global. Our journey is already underway. We believe the future of food belongs to those who connect the agricultural economy, not just those who produce it.

HONEYGUIDE — *Market Access For All.*

Transforming Agriculture. Empowering Women. Creating Value.

WHO WE ARE

Hights Enterprise Limited is a Ghanaian agro-processing company based in Bolgatanga, Upper East Region. We source agricultural produce from smallholder farmers in Northern Ghana and transform it into quality products for domestic markets and potential international partners. Through our outgrower model, we support women farmers with training, capacity building and market access while adding value to locally grown produce.

32	2,000+	NORTHERN GHANA
Women farmer groups	Women farmers supported	Local sourcing & value addition

OUR PRODUCTS

Natural powders
Baobab, moringa, hibiscus and ginger powders, alongside dawadawa and prekese.

Edible oils
Cold-pressed groundnut oil, sesame seed oil and other speciality oils.

Natural ingredients
Shea butter, baobab oil, moringa oil & wild natural honey.

Also available
Fresh & smoked guinea fowl, rice and other locally sourced produce.

NB: a non-exhaustive list of our products.

WHY PARTNER WITH US

- **Established farmer network:** 32 women farmer groups and 2,000+ women farmers supported.
- **Cooperative model**: direct farmer relationships ensure consistent quality and supply.
- **Purpose-driven sourcing:** supporting women's economic empowerment and rural livelihoods.
- **Diverse product range**: single supplier for multiple high-demand superfood ingredients
- **Certified organic**: PGS ecological organic standards, Ghana FDA-approved product lines.
- **Quality & Sustainability:** promote responsible agricultural practices, sustainable resource use and quality-focused processing locally.

PARTNERSHIP & INVESTMENT OPPORTUNITIES

We welcome interest from international importers, wholesalers, distributors, retailers, food processors, private-label brands, development organisations and investors.

Let's build value together.

Kabi Chocolate

Fresh Produce · Fruits, Vegetables & Herbs

DecoKraft Limited, established in 2013, is a Ghanaian company that makes handmade premium chocolate from Ghana's cocoa beans under the brand name Kabi Chocolate. It is based in Ashongman Estate, Accra, and was founded by Akua Obenewaa Donkor.

Our value proposition is simple: chocolate with true origin. Every bar is traceable from bean to bar. Scan the code on the wrapper to find the farm your cocoa came from and meet the farmer behind it. "Kabi" means "take a bite" in Twi, and reflects how chocolate is shared in Ghana.

KEY PRODUCTS

- Kabi Dark Chocolate Bar
- Kabi Chocolate Dipped Mango

MARKET INTEREST

Ghana's retail, wholesale and catering markets, supplying leading supermarkets, restaurants and caterers in Accra, as well as its own Eden Tree Mart in Tema. Eden Tree has worked with development partners including GhanaVeg, GIZ and Partners in Food Solutions.

LOOKING FOR

Partners and investors to strengthen reliable, cost-competitive and high-quality raw-material supply from smallholder farmers, and to grow and diversify its customer and channel base.

KOCO DLUV

Agro-processing, Foods and Snacks

Koco D'Luv Enterprise is a Ghanaian-registered, FDA- and GSA-certified agro-processing company, founded in 2012, that converts local plantain harvests into safe, shelf-stable snacks to reduce post-harvest loss. It creates market opportunities for locally produced crops, adds value in Ghana and reduces dependence on exports of unprocessed commodities. Target market: Ghanaian consumers, the diaspora, retailers and export markets seeking authentic African snacks.

Value proposition: "Authentic Roots, World-Class Taste" – premium, hygienic, naturally tasty snacks that empower local farmers and women and show that Ghana can export brands, not just raw materials.

KEY PRODUCTS

- **KOCO CRUNCH Sweet Plantain Chips**
- **KOCO CRUNCH Regular Plantain Chips**
- **KOCO CRUNCH Kelespice Plantain Chips**
- **KOCO CRUNCH Cocoyam Chips**

MARKET INTEREST

Interested to expand outside of Ghana, specifically Netherlands, Germany, United Kingdom and United States.

Mind Snacks Ltd

Food Processing / Healthy Foods & Snacks

Mind Snacks Ltd transforms Ghanaian ingredients into healthy foods and snacks, celebrating local flavours while supporting the local economy. Its range includes three flavours of granola, created for consumers seeking wholesome everyday choices. By sourcing locally and processing in Ghana, the company adds value to Ghanaian produce and supports local suppliers, and aims to bring its products to European consumers through partnerships with buyers, importers and distributors.

KEY PRODUCTS – 3 FLAVOURS OF GRANOLA

- **Ghanola** – tropical granola with dried mango, coconut and cashews, inspired by Ghana's abundance.
- **Superfood** – a wholesome blend of oats, seeds, nuts and superfoods for everyday nourishment.
- **Chocanola** – rich chocolate and peanut butter granola with dark chocolate pieces and chia seeds.

MARKET INTEREST

EU markets, with priority interest in the Netherlands, Germany, France and Belgium, through importers, distributors and retailers serving healthy-food consumers and African diaspora communities.

Ohene Cocoa

Agribusiness; food and beverage; and eco-tourism

Ohene Cocoa is a family-owned, single-origin cocoa business trading since 2018, with its own farm in Oworam-Asamankese, Eastern Region, and production in Accra. We turn our farm's whole beans into cacao nibs, cocoa mass, cacao energy bars and cocoa husk, and run farm eco-tours. Every product is grown, processed and packed in Ghana, so buyers get cocoa traceable to a single farm, with the value added at origin rather than abroad. We serve retail, wholesale and export buyers.

PRODUCTS ON SHOW

- Premium Cacao Nibs (50g to 500g retail packs, bulk by kg)
- Cocoa Mass/Liquor (Vegan Baking Chocolate), per kg
- Cacao Energy Bars (40g, four flavours: peanut, ginger, coconut, raw cacao)
- Premium Cocoa Husk Drink (75g and 250g)
- Sweet Cacao Nibs (50g packs)

MARKET INTEREST

Ghana (wholesale and retail), and wholesale buyers in the United States and Europe.
In Europe: Germany, the Netherlands and Belgium.

LOOKING FOR

EU buyers, distributors and private-label partners for our single-origin cacao nibs, cocoa mass/vegan baking chocolate, cocoa husk, and cacao energy bars.

OIM Fabrication Limited

Industrial · Metal Fabrication & Investment Opportunity

OIM Fabrication Limited is a Ghanaian metal fabrication company, incorporated in 2012 and based in the North Kaneshie Industrial Area of Accra. Its operations now require considerably less space than the 1.36-acre industrial plot it occupies, and the company is therefore inviting investors to develop the available land. Investors can take part either as joint-venture partners, sharing the investment and returns on terms to be agreed, or as the main user of one of the parcels, building their own business on the site. The final structure, layout and commercial terms will be agreed with each investor.

MARKET INTEREST

- Plot 46, Block XI, Dadeban Road Extension, North Kaneshie Industrial Area, Accra
- 1.36 acres (0.55 ha, about 5,500 m²), industrial use
- 50-year government lease expiring on 28 February 2065, with a renewal option held by OIM
- Established industrial and commercial district, with neighbours such as Melcom, Promasidor, Stanbic Bank and MTN
- Digital address: GA-210-3513

MARKET INTEREST

Agricultural tools manufacturing, light manufacturing and assembly, warehousing and distribution, showroom or retail outlets, offices, metal or auto workshops, and Technical and Vocational Education and Training (TVET) institutions.

LOOKING FOR

Investors to develop its industrial land in Accra, either as joint-venture partners or by taking a parcel to build their own business.

Solidaridad

Information Technology · Data Management & Software Development

Solidaridad West Africa is part of Solidaridad Network, an international civil society organization with nearly 60 years of experience developing solutions for more sustainable supply chains and resilient communities. Solidaridad works with farmers, miners, workers, businesses, governments and other partners to improve productivity, strengthen livelihoods and promote responsible production. By building farmers' capacity, strengthening access to services and markets, and supporting inclusive policies, Solidaridad helps create fairer and more sustainable supply chains. Our mission is to enable farmers, miners and workers to earn a decent income, shape their own future and produce in balance with nature by working throughout the supply chain.

KEY PRODUCTS & SERVICES

Solidaridad works to make supply chains fairer and more sustainable by strengthening four interconnected systems:

- **Production:** Building farmers' capacity to adopt good practices, improve productivity and develop viable, resilient farm businesses.
- **Services:** Strengthening access to quality agricultural services, inputs, finance and training.
- **Markets:** Improving market access and promoting fairer opportunities for farmers and other supply chain participants.
- **Governance:** Supporting inclusive policies and frameworks that enable sustainable production and represent farmers' interests.

Through these pathways, Solidaridad works with supply chain partners to improve livelihoods, promote environmental responsibility and build more inclusive and resilient supply chains.

MARKET INTEREST

Our regional office is in Accra, Ghana. We have a legal presence in Côte d'Ivoire, Sierra Leone and Nigeria, with operations in Togo and Chad.Our supply chain work spans cocoa, cotton, oil palm, artisanal mining, aquaculture, poultry, fruits and vegetables, and local food systems.

LOOKING FOR

At the EU-Ghana Agribusiness Exhibition & Forum 2026, Solidaridad West Africa seeks to connect with agribusinesses, development partners and other stakeholders to explore opportunities for collaboration, share our approach to building sustainable supply chains, and promote solutions that help farmers improve productivity and livelihoods.

Think! Data Services Limited

Information Technology · Data Management & Software Development

Think! Data Services Limited is an Accra-based social enterprise founded in 2012 by CEO Brenda Bijen. It began by giving certified farmer groups in Ghana affordable, scalable digital tools for data collection and analysis, and today provides data management, cloud and custom software solutions to impact-driven organisations in Ghana, Nigeria and beyond.

The company brings more than a decade of experience in agriculture, sustainability, education and development. It has built a data management platform for cocoa-sector stakeholders covering over 100,000 farmers in Ghana, including farm mapping, supply-chain traceability and EUDR compliance reporting.

KEY PRODUCTS & SERVICES

- Custom software development and dedicated development teams
- Kuana Data- Data collection and data management platforms, including farm mapping and traceability
- Cloud solutions and data engineering
- Data analytics for sustainable development and sustainability reporting
- Edumetric – exam processing and assessment platform
- Data science: machine learning, deep learning and data annotation

MARKET INTEREST

Organisations in agriculture, sustainability, education and development across Ghana, Nigeria and wider Africa, particularly agribusiness supply chains that need farm-level data, traceability and EU regulatory reporting such as EUDR compliance.

LOOKING FOR

European agribusinesses, commodity buyers, certification bodies and development organisations needing data and traceability solutions in Ghana, as well as technology and implementation partners.

ThirdWell Inclusive Business Centre (IBC)

Inclusive Business Consulting and Investor Readiness

ThirdWell Inclusive Business Centre (IBC) is a not-for-profit organisation with the strategic objective of empowering inclusive businesses and SMEs to scale up and achieve greater impact. It believes inclusive businesses are the most sustainable pathway to improve the income and living standards of low-income groups, and focuses on the challenges that inhibit their scaling and sustainability.

Ultimately, IBC aims to create a credible, safe and well-coordinated investment ecosystem in which inclusive businesses, investors, financiers, development agencies and public institutions work together for positive systemic change.

KEY PROGRAMMES

BIIGS – Business Innovation, Impact, Growth and Succession

IBSY – Inclusive Business Startup for Youth

SIT – Sustainable Impact Transformation

IBCs – Inclusive Business Courses

MARKET INTEREST

European philanthropies, investors, development financiers and development agencies interested in working with a credible Ghanaian partner to sustainably improve the income and living standards of low-income (Base-of-the-Pyramid) groups in Ghana, through inclusive businesses and SMEs that directly and deliberately involve them in their value chain.

LOOKING FOR

EU philanthropies, investors, development financiers and development agencies.

Trusteefarm Limited

Agribusiness · Food Processing · Export · Logistics · Agribusiness Digital Tech · Finance

Trusteefarm connects farmers with food processing companies through its digital sourcing platform, helping businesses source quality agricultural produce in large volumes. It also handles customised orders based on specific quantity, quality and sourcing requirements. Its long-term aim is to become a digital "operating system" for African agriculture, built on three pillars: a marketplace platform using predictive analytics, premium commodity trading and direct production (cashew, coconut, soya, maize and shea, including a 1,000-acre coconut plantation under phased development), and processing of coconuts into products like virgin coconut oil, milk and water.

PRODUCTS ON SHOW

Dried de-husked coconut
Cashew nuts
Shea butter
Digital sourcing platform

MARKET INTEREST

Interested in European markets (Netherlands, Germany, France, Austria, etc.) and ECOWAS markets.

LOOKING FOR

Buyers, Distributors, Investors and Joint Venture Partners, for software and data infrastructure, market expansion and plantation development.

Varkess Netherlands Rep: Napman Ventures

Livestock · Pig Farming Training & Capacity Building

Napman Ventures Limited is a Ghanaian livestock-focused company providing capacity building, technical training and professional development in modern pig production. Through its representation of Varkess Pig Farm Training in the Netherlands, it connects Ghanaian farmers, farm managers and technical officers with practical Dutch expertise and hands-on training.

Its services cover pig production, nutrition and feeding, breeding, piglet and colostrum management, animal health, biosecurity, hygiene and farm management, supporting improved productivity and sustainable livestock development.

KEY PRODUCTS

- Professional pig farming training
- Livestock capacity building and technical training
- Pig nutrition, feeding and farm management
- Piglet, breeding and reproductive management
- Animal health, biosecurity and farm hygiene

MARKET INTEREST

The Ghanaian livestock and agribusiness sector, including commercial pig farmers, farm managers, agricultural projects, farmer groups, technical officers and institutions. Internationally, partnerships and technical cooperation with livestock and agricultural organisations in the Netherlands and other European markets.

LOOKING FOR

EU training partners, technology partnerships, investment partners and institutional collaborations to strengthen livestock capacity building and professional pig farming in Ghana.
